Declaration of the Collège Protestant Français of Beirut and the Collège Protestant Français of Dik el Mehdi.

Unfounded and indecent allegations that a CPF student died of COVID 19 are circulating on social media.

Présence Protestante Française au Liban - PPFL and the school principals of both sites condemn in the strongest terms this false information, which seeks to damage the reputation of these two respective establishments.

For the record, the CPF Beirut and the CPF Dik El Mehdi have applied and drastically enforce official health security measures to protect students and staff from any spread of the COVID-19 pandemic inside their establishments.

Any information concerning these two establishments emanating from private and non-institutional social networks is not based on any truth or foundation.
